

## PROGRAM INVITATION

### RE: **Mega Education® Homework Completion Program**

Dear Parents, Teachers and Students:

**Mega Education®** is a dynamic, "Stay in School" scholastic incentive program created by Attorney Jeffrey P. Dressler in 1990. Mega Education® is designed to reward student effort and achievement. Of course, the program is absolutely free!

As you know, **Mega Education®** sponsors an on going monthly, School Attendance Program. Once at school, students are required to do homework. Accordingly, **Mega Education®** has created a monthly, **Homework Completion Program** and awards three (3) winning students a night to remember: four [4] event tickets to an entertainment/sports venue, a dinner gift certificate for four [4] people at an area restaurant and Limousine transportation will be provided from the winning student's home to the entertainment/sports venue, the restaurant and the return trip home. See rules and regulations for the **Mega Education® Homework Completion Program** on our website [www.megaeducation.com](http://www.megaeducation.com).

**Mega Education®** promotional ads are presently aired on television "edutaining" the public as to this dynamic scholastic incentive program!

Browse our website and contact us with respect to other **Mega Education®** programs. We would be happy to discuss support for other **Mega Education®** programs at your school.

Very truly yours,

Jeffrey P. Dressler  
Program Creator
